2 + 4 = 6 marks

Question 2 (2 marks)

The General Ledger consists of all ledger accounts and is used for double entry recording. Transactions are posted to the General Ledger. Each ledger account is then totalled and then either closed off to the Profit and Loss Summary account (for revenue & expenses) or balanced and entered into the Balance Sheet at the end of each reporting period.

2 marks

Question 3 (14 marks)

a.

| | Accounts Receivable | | | | | | |

b.

The GST Clearing account will be classified as a current asset as it will represent a present economic resource controlled by an entity which will provide economic benefit in the next year.

1 + 2 = 3 marks

Question 4 (6 marks)

a.

Discuss: As the amount paid for Electricity was lower than the amount recorded, the amount shown in the Bank account would be lower than the actual amount. Hence the assets would be understated.

In addition to this, the expense would be reported as greater than actually incurred and so Profit would also be understated as expenses are overstated.

Liabilities are also understated as the amount recorded as paid is more than the amount actually incurred.

b.

| | | General Ledger | | | |
|--------|------------------|----------------|--------|--|--|
| Date | Details | Debit | Credit | | |
| | | \$ | \$ | | |
| Nov 30 | Interest expense | 200 | | | |
| | Interest revenue | 200 | | | |
| | Bank | | 400 | | |

3 marks

Question 5 5a. General Journal

| Date | Details | General Ledger | | |
|-------|----------------------|----------------|--------------|--|
| 2019 | | Debit \$ | Credit \$ | |
| Nov 2 | Inventory Write-down | 75 | | |
| | Inventory | | 75 | |

5 units x (Cost \$85 – NRV \$70) = 15 per unit

2 marks

| 5b. | |
|--|---|
| Qualitative Characteristic: Relevance | |
| The Accounting reports must contain information that is useful for the users of the reports. | |
| This includes adjustments to the inventory that will be sold for less than cost, to prevent | |
| overstating the value of the assets (inventory) and net profit | |
| 2 + 1 = 3 | m |

Question 6 (12 marks)

a.

| Photocopier \$15,000 + Fax \$700 (excluding GST) = \$15,700 x 10% = | \$1 570 | |
|---|--------------|--|
| Safe \$2,000 @ 10% = \$200 p.a x 9/12 months = | \$150 | |
| Desk & Chairs @ \$8,800 x 10% = \$880 per annum x 6/12 months = | <u>\$440</u> | |
| | \$2 160 | |

b. General Journal

| Date | Details | General Ledger | |
|--------|------------------------------|----------------|--------|
| 2019 | | Debit | Credit |
| | | \$ | \$ |
| 1-July | Disposal of Office Equipment | 2 000 | |
| | Office Equipment | | 2 000 |
| | Acc Dep – Office Equipment | 150 | |
| | Disposal of Office Equip | | 150 |
| | Bank | 1 500 | |
| | Disposal of Office Equip | | 1 500 |
| | Loss on Disposal | 350 | |
| | Disposal of Office Equip | | 350 |
| | Office Equipment | 2 500 | |
| | GST clearing | 250 | |
| | Bank | | 2 750 |

4 + 2 + 2 = 8 marks

c.

The disposal account is a temporary account used to (a) close off the NCA Office Equipment and Accumulated Depreciation

accounts and (b) calculate the profit or loss on disposal, which is reported in the

Income Statement

2 marks

Question 7 (6 marks)

a.

The favourable increase in GPR is a result of an increased mark-up, due to either (or both)

of an increased sale price or reduced cost price of inventory.

An increased sale price could lead to a reduction in revenue if some of the customers have

opted for cheaper alternatives. If expenses have remained relatively constant, then

this would explain a drop in the NPR.

Alternatively, expenses have increased more significantly than revenue leading to a \downarrow in NPR

b.

Suggestion 1: increase sales revenue via a promotion (providing revenue increases more proportionally than expenses.

Suggestion 2: reduce expenses (e.g. reduce wages by limiting the hours of casuals during off peak periods)

2 marks

The comparison of net profit to a base figure such as Assets (ROA) or Sales (NPR).

1 mark

Question 8 (6 marks)

a.

c.

The prepayments are excluded from the QAR formula, because it is difficult to convert to cash. Inventory is excluded because it is not always easily and quickly converted into sales – i.e. it may be obsolete or become damaged.

2 marks

b.

The purchase of additional inventory due to a strategic decision to diversify the inventory mix has increased inventory on hand & current assets, consequentially increasing the WCR. The QAR may have declined due to a reduction in the bank balance (to pay for additional inventory) thus causing a decline in the quick assets and consequentially the QAR.

2 marks

c.

The slower ITO has adversely affected the liquidity as highlighted by the decline in QAR. The additional inventory purchased has resulted in more cash outflows, which hasn't been paired with a corresponding increase in sales and a proportional increase in operating inflows in the form of cash sales/ receipts from accounts receivable. Thus the slower ITO (extra 32 days) is putting additional pressure on cash resources in the short terms.

Question 9 (6 marks)

a.

Mega mart

Extract of Variance report for the year ending 31 December 2019

| | Budget \$ | Actual \$ | Variance \$ | F/U |
|-------------------------------|--------------|--------------|----------------|-----|
| Other revenue | | | | |
| Profit on Disposal of Vehicle | 0 | 200 | 200 | F |
| Discount Revenue | 390 | 440 | 50 | F |
| Interest on Term Deposit | 600 | 600 | 0 | - |

1 mark

b.

The Vehicle has been over depreciated due to the under estimation of either/both of the useful life or residual value. Non-current Assets such as Vehicles are not purchased with the intention of selling them for a profit. Thus Laz has not budgeted for a profit on the disposal as he would have assumed an accurate allocation of the cost of the Vehicle over its useful life.

2 marks

c.

Interest on a term deposit is fixed in advance, thus accurately budgeted for.

1 mark

d.

One benefit of preparing a variance Report is it allows the owner of the business to identify where the business may have deviated from the budget and provide possible solutions to ensure such deviations don't occur in the future.

Question 10 (15 marks)

| a. | | | Inve | ntory | | |
